

Signature Series

■ The BUMA

■ The BUMA Heavy Duty

■ The BUMA Modular

The BUMA, BUMA Heavy Duty, and BUMA Modular make up our Signature Series cameras, our most advanced outdoor surveillance cameras. Each of these camera systems features highly durable, protective aluminum housing, built to withstand the toughest environments. Inside, several advanced surveillance options are available, including standard, high definition, and all new ultra high definition camera cores with up to 40x SD zoom, 30x HD zoom, 4K resolution, EMCCD, thermal imaging, speakers, spotlights, Infrared Illumination, and a laser illuminator.

Each of our Signature Series cameras comes standard with the camera head module inside our unique and protective housing, a combined pan and communication module, and a ground surface base. For a complete solution when more advanced capabilities are required, the Signature Series cameras are designed for seamless integration into our revolutionary REKKS Smart Perimeter System (SPS). When included as part of the SPS, the BUMA, BUMA Heavy Duty or BUMA Modular camera head is selected to top the pole system. The system's superior design and durability make the Signature Series cameras the perfect solution for remote, off-grid applications and suitable for even the most extreme environments.

Available Models:

Description

The patent pending BUMA is a uniquely designed stand-alone camera, now featuring our all new Ultra High Definition camera core capable of delivering full 4k resolution of 3840 x 2160 pixels. Internal components are protected by vandal and weatherproof anodized aluminum housing and can easily be paired with our REKKS Smart Perimeter System for advanced capabilities and off-grid power solutions. An H.264 compression stream and advanced DSP technology secure 24 hour monitoring in remote areas and provide crystal clear images in nearly all lighting conditions. An optional DIS feature makes this camera ideal for tactical and heavy duty vehicle mounting.

Suggested Applications

- Bases, Outposts and Checkpoints
- Border and Port Facilities
- Construction Sites and Pipelines
- Educational and Research Facilities
- Energy Infrastructures and Drill Sites
- Governmental Facilities
- Nighttime Surveillance
- Parks and Recreational Facilities
- Remote and Undeveloped Areas
- Traffic and Transportation Infrastructures

The BUMA Heavy Duty

Description

We are proud to offer the BUMA Heavy Duty to further enhance the capabilities of our original BUMA. The BUMA Heavy Duty offers all of the BUMA's core features, including SD, HD and our all new UHD camera cores, H.264 compression stream, advanced DSP technology, WDR, and its distinct tube shaped design.

What truly set the BUMA Heavy Duty apart are its uniquely rugged capabilities. The heavy-duty aluminum housing is approximately twice the size of the standard BUMA, which allows for additional protection and enhanced features to be incorporated directly into the camera head. The heavy-duty head has a built-in rechargeable battery for up to 12 hours of local power independent from additional power system options, a minimum of 512GB internal solid state storage, WiFi hotspot capabilities, and two separate video streams - one that is stored locally and one that transmits to command center encoders. As an added layer of protection in areas of conflict and/or civil unrest, the heavy duty head features composite inlays and specialized glass for a ballistic resistant and explosion proof system. We make it possible to secure the most sensitive targets and the most remote, inhospitable environments.

Suggested Applications

- Bases, Outposts and Checkpoints
- Border and Port Facilities
- Conflict Zones
- Construction Sites and Pipelines
- Critical Infrastructures and Sensitive Targets
- Energy Infrastructures and Drill Sites
- Governmental Facilities
- Remote and Undeveloped Areas

The BUMA Modular Housing

Description

To offer our customers a truly customized surveillance solution we present the BUMA Modular series. The patent pending, multiple core design features a single (BM-1) or triple (BM-3) frame housing that optimally attaches to our REKKS Smart Perimeter System for a sturdy and independently powered pole mount. Customers are then able to choose insert modules, depending on the capacity of the selected model, to connect to the housing bracket. In the event a customer wishes to modify or add to the system's capabilities, the insert modules can easily be exchanged without having to replace an entire surveillance system.

Suggested Applications

- Bases, Outposts and Checkpoints
- Border and Port Facilities
- Construction Sites and Pipelines
- Educational and Research Facilities
- Energy Infrastructures and Drill Sites
- Governmental Facilities
- Long Range Surveillance
- Nighttime Surveillance
- Remote and Undeveloped Areas
- Traffic and Transportation Infrastructures

BM-Camera Inserts

Description

Several camera inserts are available for both the single and triple frame housing, including all of our BUMA SD and HD cores, our all new UHD core, an EMCCD camera, and a thermal imaging camera.

The BUMA Modular SD offers a cost effective, yet impressively capable outdoor surveillance solution, ideal for large area and long-range surveillance, and is complete with day & night functions for continued operation in most lighting conditions. For projects requiring advanced imaging capabilities, our BUMA HD camera delivers full HD resolution of 1920x1080p at 30 frames per second. Our most advanced camera and latest addition, our UHD camera, provides true 4k surveillance imaging with a resolution of 3840x2160 and is best suited applications requiring precise imaging. Even at high zoom levels the BUMA camera maintains image integrity and delivers crisp images at all light levels. The BUMA HD and UHD are best suited for large surveillance fields where a high, level of detail is required and are easily paired with our off-grid power pole system.

For low light or nighttime applications, our Low Light, EMCCD and thermal imaging cameras are valuable tools. EMCCD technology delivers monochrome video with exceptional image quality, including outstanding target recognition and identification capabilities. Thermal imaging cameras offer image penetration through smoke, dust, and water vapor in addition to providing clear images at near or mid-range distances in full darkness. Our thermal camera has a 384 x 288 pixel uncooled detector and uses an image detail enhancement (IDE) algorithm to enhance low contrast targets in high dynamic range scenes. Please refer to the BUMA Modular Housing page for all complete housing and mount options.

BM-UHD Insert

Lens

Image sensor	Global Shutter CMOS
Sensor Size	Super 35 (22.53 x 11.88mm)
Resolution	4096x2160 or 3840x2160 (4x full HD)
Dynamic Range	12 stops
Minimum illumination	0,3 lux

Video

Compression	H.264 / M_JPEG support dual stream/ MPEG4/ ASP/ MxPEG
Bit rate	32Kbps to 8Mbps
Video output	4x 3G/HD-SDI (4x BNC)
Quad Link Output Formats	10-bit 4:4:4 quad link (UHD and 4K:23.98, 24, 25, 29.97, 30) 10-bit 4:2:2 or RAW quad link (UHD: 23.98, 24, 25, 29.97, 30, 50, 59.94, 60), (4K: UHD and 4K:23.98, 24, 25, 29.97, 30, 47.95, 48, 50, 59.94, 60) progressive scan
Frame rate	NTSC / PAL
Image enhancement	manual and auto white balance, 1-Shot auto, matrix adjustment and saturation correction, backlight compensation, auto exposure, WDR, integrated IR-cut filter and OLPF, iris control, on-screen display
Preset points	128
Sensitivity Adjustment	ISO control; up to 4x digital gain

Audio

Audio input	one channel MIC in or line input unbalanced 1.4 Vp-p
Audio output	one channel, RCA interface, linear output
Audio compression	G.726, G.711, ADPCM

Alarm System Integration

Alarm input	one channel on/off input NO/NC
Alarm output	one channel on/off output 120 VAC 1A / 24 VDC 1A
Serial port	RS485 transparent protocol
Recording	motion trigger, alarm trigger, manual or schedule

Network and Storage

Ethernet port	10/100M Base-t self-adapting Ethernet port
Protocol	TCP/IP, UDP, RTP, RTSP, RTCP, HTTP, DNS, DDNS, DHCP, FTP, NTP, PPPOE, SMTP, UPNP
Web browser	Internet Explorer 9.0 or above
Wireless protocols	802.11b/g supports WEP, WPA, WPA2 (optional)
SD storage	up to 32GB

Operating Conditions

Operating temp.	-10° C ~ +60° C
Storage temp.	-20° C ~ +80° C
Operating humidity	10% ~ 85%

Weight and Dimensions

Input voltage	12 VDC
Power consumption	15W
Dimensions (cm)	20 x 14.1 x 26.7 (W x L x H)
Weight	5 Kg
Colors	white, black, camouflage wrap

BM-Low Light Insert

BUMA-LL

BUMA-EMCCD

Core

Sensor type	1/2" Exview HAD CCD II	1/2" Frame Interline Transfer (FIT) impactron
Active pixel	752 x 582	658 x 496
Pixel size	8.6µm x 8.3µm	10µm x 10µm
Active area	6.47mm x 6.83mm	6.58mm x 4.96mm
Dynamic range	>60dB	55dB
Spectral response	350-1100nm	350-1100nm
Minimum illumination	< 1µlux	< 200µlux
Resolution	480 TV lines	450 TV lines
Cooling	active, no fan	active, no fan
Antiblooming protection	-	yes (>500:1)
Exposure time	-	500µs to 1/50s (CCIR) or 1/60 (EIA)
Frame rate	25Hz (CCIR), 30Hz (EIA/NTSC)	25Hz (CCIR), 30Hz (EIA)
Readout mode	progressive scan	progressive scan

Alarm System Integration

Alarm input	one channel on/off input NO/NC	one channel on/off input NO/NC
Alarm output	one channel on/off output 120 VAC 1A / 24 VDC 1A	one channel on/off output 120 VAC 1A / 24 VDC 1A
Serial port	RS485 transparent protocol	RS485 transparent protocol
Recording	manual or schedule	manual or schedule

Weight	BM-1: 8 Kg BM-3: 17 Kg	BM-1: 8 Kg BM-3: 17 Kg
Colors	white, black, camouflage wrap	white, black, camouflage wrap

BM-Thermal Insert

Core

Sensor Type	Uncooled
Material	Polysilicon
Thermal response time	7ms
Resolution	384x288
Pixel size	35umx35um
Spectral range	8-14um
Fill factor	>80%
Brightness, Gain Control	Auto / Manual
NETD	<100mk@30° C
Start-up time	≤25s (25° C normal operating)

Alarm System Integration

Alarm input	one channel on/off input NO/NC
Alarm output	one channel on/off output 120 VAC 1A / 24 VDC 1A
Serial port	RS485 transparent protocol
Recording	manual or schedule

Network and Storage

Ethernet port	10/100M Base-t self-adapting Ethernet port
Protocol	TCP/IP, UDP, RTP, RTSP, RTCP, HTTP, DNS, DDNS, DHCP, FTP, NTP, PPPOE, SMTP, UPNP
Web browser	Internet Explorer 9.0 or above
Wireless protocols	802.11b/g supports WEP, WPA, WPA2 (optional)

Operating Conditions

Operating temperature	-10° C ~ +60° C
Storage temperature	-20° C ~ +80° C
Operating humidity	10% ~ 85%

Weight and Dimensions

Input voltage	12 VDC
Power consumption	4.5W
Dimensions (cm)	BM-1: 39 x 39.9 x 26.8 (W x L x H) BM-3: 39 x 13.3 x 26.8 (W x L x H)
Weight	BM-1: 8 Kg BM-3: 17 Kg

Description

To be used alone or in conjunction with the BUMA Modular Camera Inserts, we offer several other insert options for both the single and triple frame housings. To further enhance nighttime surveillance capabilities, we offer IR and laser illuminator modules. For low-light applications, power to the IR and illuminator modules is activated by a built-in light sensor. They are optimally paired with our standard camera core modules for a complete visual surveillance solution.

A speaker module provides a way to remotely deliver announcements to the surveillance field. This module can also be used to provide sirens, alerts or signals to notify bystanders of impending threats or dangers. The speaker has an efficient, compact design, yet offers premium sound quality with heat-resistant capabilities. This ensures continued operations and message delivery through volatile, high-heat environments.

Another valuable insert option for the BUMA Modular is a spotlight for ground illumination. We offer a spotlight module that can be activated when ground or area illumination is needed. The compact light features highly efficient LED lights that provide up to 900 lumens at over 90 lumens/watt, with a 120-degree beam pattern.

BM-Additional Inserts

Audio Broadcast

Volume: 43.9 dBm

Effective range: 1 Km minimum

Power: 12 VDC

Power handling: 25 Watt

Output: voice, Siren.

Short Range Night Vision

Wavelength: 850nm

Horizontal field-of-view: 45 degrees

Vertical field-of-view: 45 degrees

Distance: up to 100 m

Long Range Night Vision

Rang: 3.2 Km Min

Wavelength: 830 nm

Output Power (max.): 600 mW

Illuminator Divergence: 4°

Laser Class: 1 EyeSafe

Environmental Rating: IP-67 (waterproof)

Working Ranges: Human detection 1500m, Vehicle detection 3000m

Area Illumination

Power source: 12 VDC

Body colour: black

Power consumption: 20w

Lumens output: 1200lm

Beam angle: 120 degrees

Light colour: 4500k
